Dedication

We the students of GCHS dedicate this, our 1958-1959 Yampah trophy to Robert Daniels.

In his five years at Garfield County High School, he has been an inspiration in mathematics instruction. His enthusiasm in his professional career has been shown by his organization and sponsorship of Mu Alpha Theta, Honorary Mathematics Club, and his being instrumental in the organization and co-sponsorship of the Future Teachers of America.

His records in athletics speak highly for him. In his two years as head coach of football, he has won two league conference titles. As head coach of basketball he has also won two league conferences.

Administration

Principal
NICHOLAS R. MASSARO

Each year as our school increases in size, more and more honors are awarded to our students and school. The 1958-59 school year has not been an exception. I am proud of the students and faculty of GCHS. They have made outstanding records in the academic field as well as our clubs, music, athletics and all other activities.

The reputation of Garfield County High School is one of envy and I know that each of you, as the students in the past have, will see that this high standard is not only maintained but improved.

Our main objective at GCHS is to see that each of you are given the opportunity to obtain the best education possible and only through your continued cooperation and enthusiasm will this be accomplished. We are fortunate and have such wonderful support from our school board and community to help us try to achieve this objective.

Superintendent
LUCIAN H. ALLEN

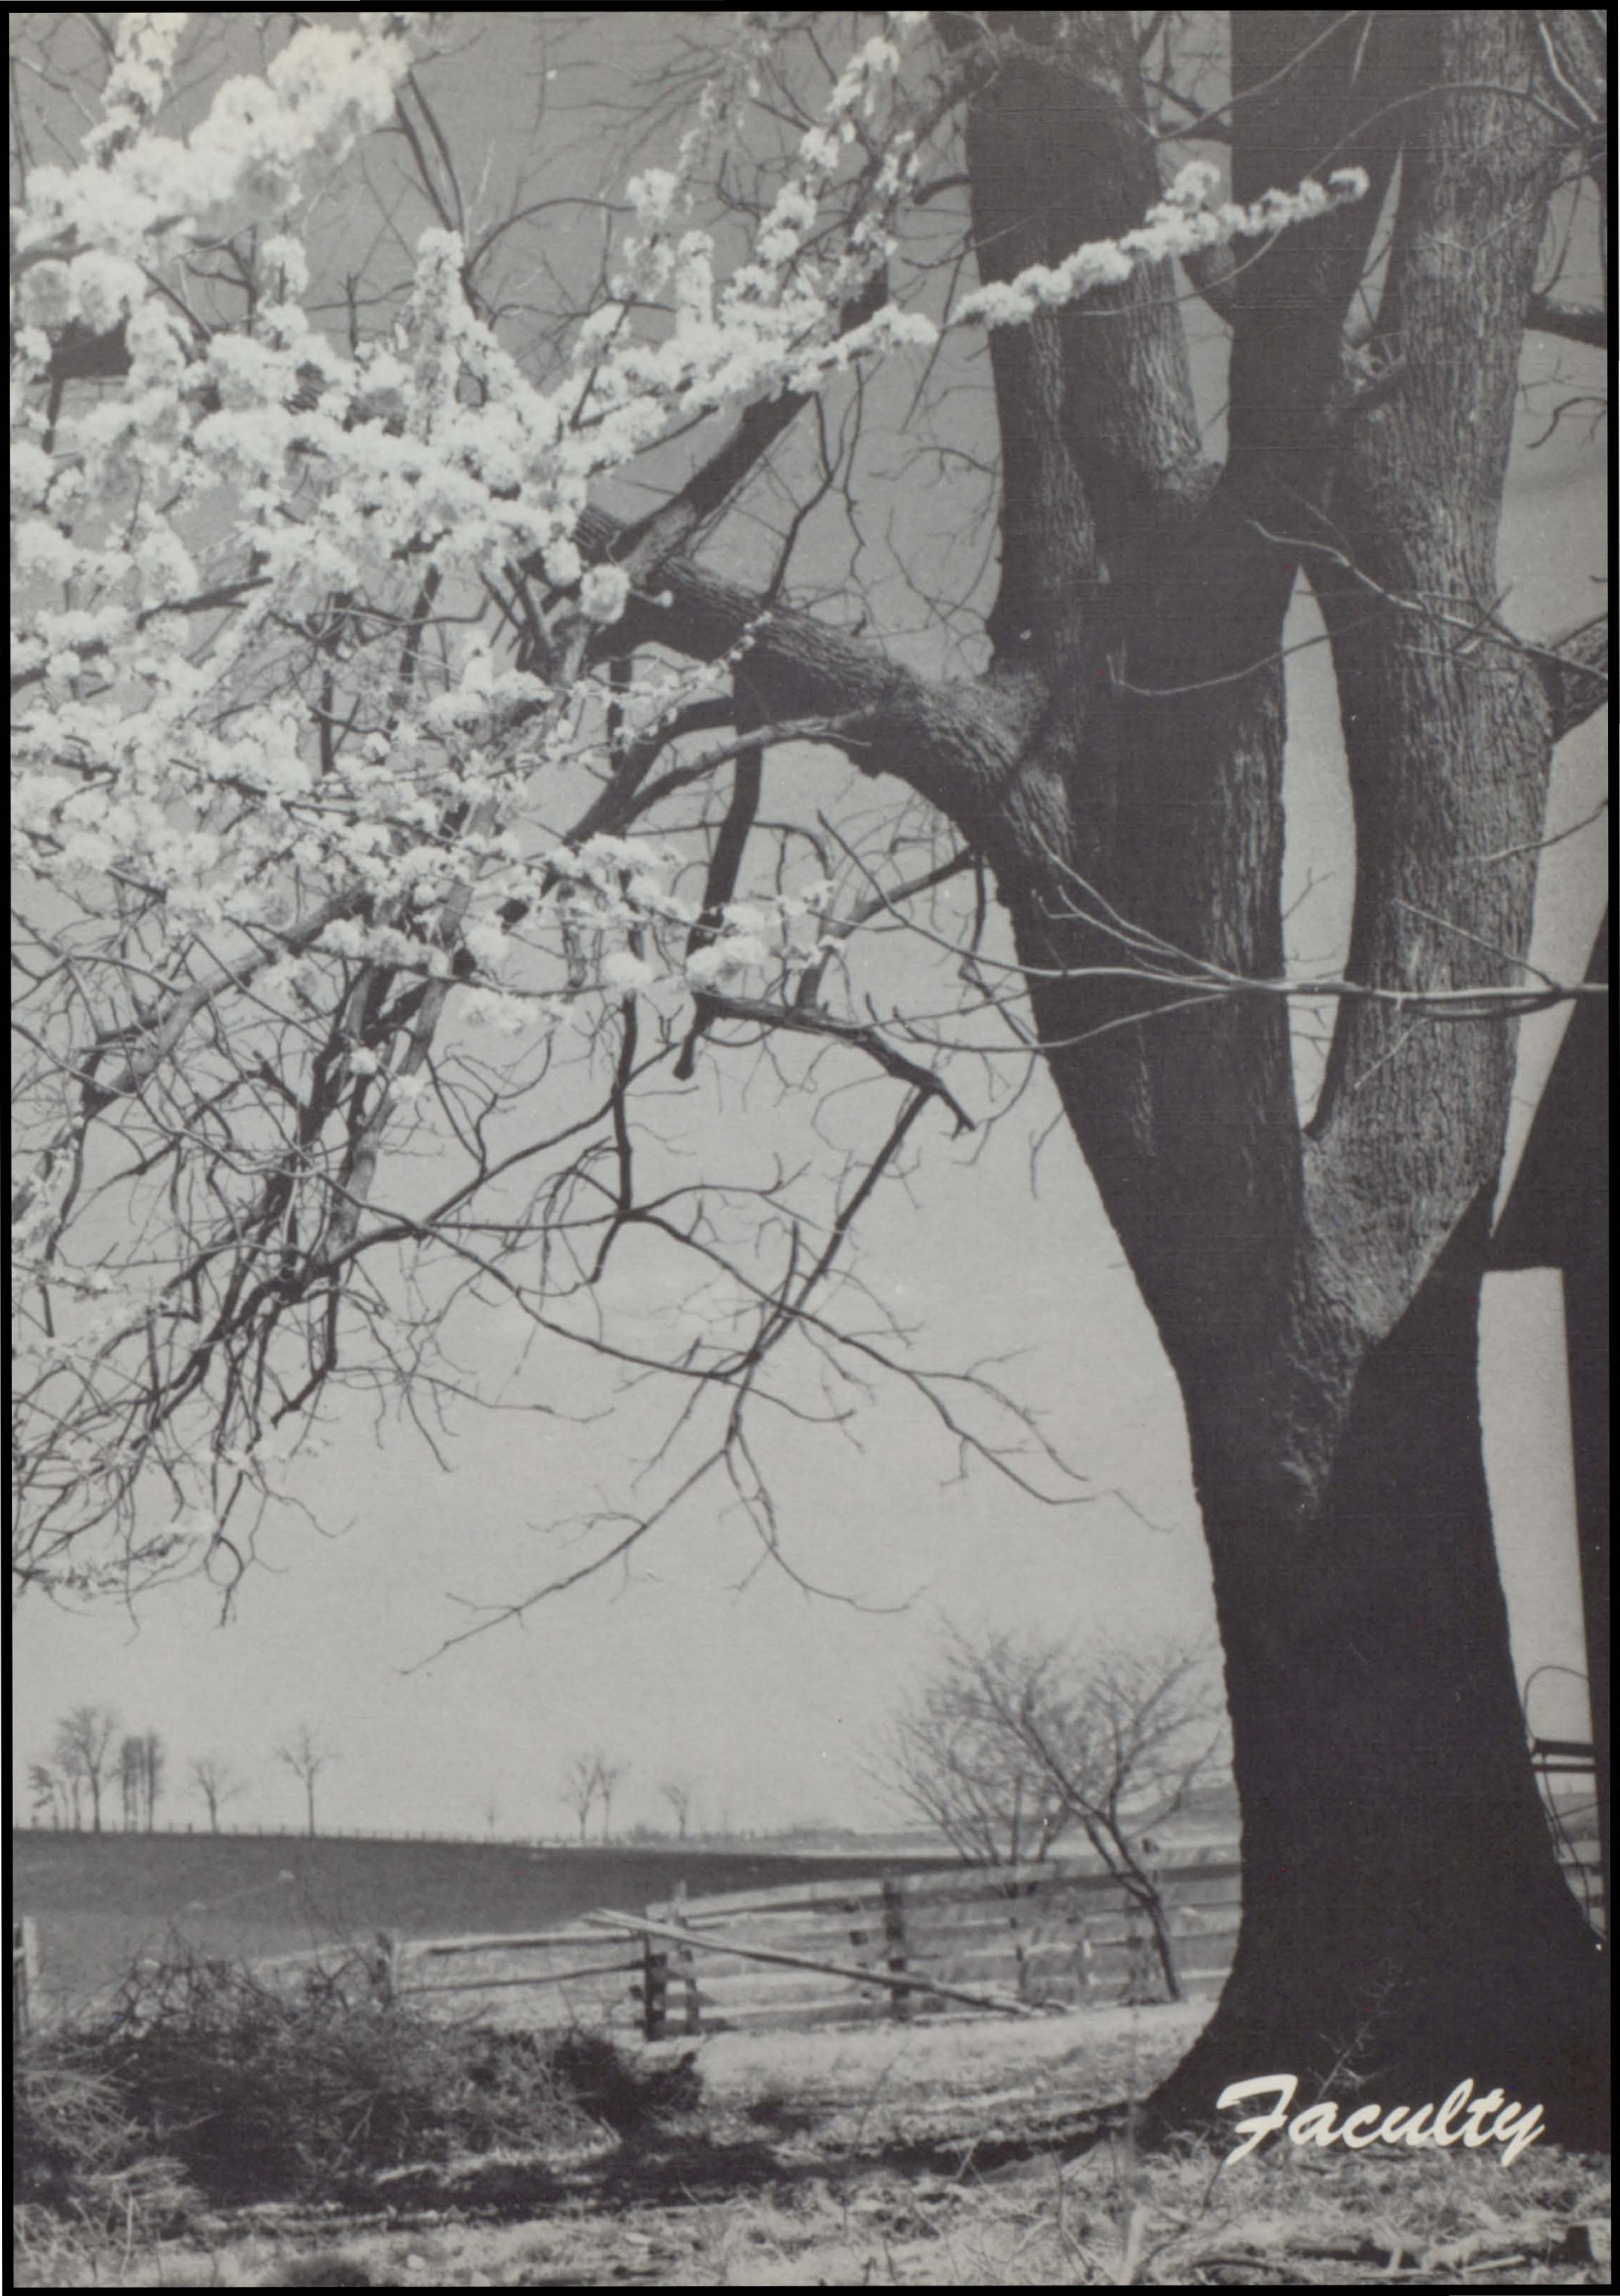

The demands made upon you, in order to meet the ever-increasing complexities of life, far exceed demands made on those who have gone before you.

Chances are slim that I will ever travel by Jet, visit the moon, or have my home heated and lighted with atomic energy. All of these may be common place in your life.

You will be charged with the responsibilities of seeing that your children have educational opportunities that will prepare them for an even more complex living than you will experience.

We can no longer afford to say "what was good enough for me is good enough for my children," they may live in a different world - not literally, but actually.
